2025 Zonal Avenue
Los Angeles 33, California

Dear Werner:

We were delighted to hear from you and of course we will be very pleased to have you work with us here when you can. I will count on your starting October 1, and for at least one or two months or as much longer as you can manage to arrange later. We have some money for a stipend and we can discuss this later on. We will be leaving in about a week and should be back from Europe about the middle of June.

Best wishes from both of us.

Yours sincerely,

Joshua Lederberg
